Infusible Ink & HTV Zippered Pouches

Every single one of our founding members put on their intake questionnaire that they would like to use HTV and/or Infusible Ink in one of the classes, so we are going to do just that!
Since our first class is on January 29th we are making zippered pouches with upcoming holiday themes:

1. Valentine's Day (February 14th)
2. National Random Acts of Kindness Day (February 17th)
3. Galentine's Day (February 13th)
4. Of course you are also always welcome to make this project 100% your own and use any design you would like on the project.

Not only do zippered pouches make a great gift on their own, they are also super cute to fill with other smaller gifts!

Ideas:

1. Put chocolate kisses and a Valentine's Day card inside for Valentine's Day.
2. Put a gift card to your favorite cafe, an **affirmation note**, and a "This is a Random Act of Kindness, Pass It On" note inside for Random Acts Of Kindness Day.
3. Put movie tickets, your friend's favorite movie candy and a note inviting your friend on a Galentine's Day date inside the pouch for Galentine's Day.

Supplies:

- **Cricut cutting machine**
- **Standard Grip Cricut Mat**
- **Infusible Ink** and/or **Iron-On**- I will be using black and red or pink (Note: If these aren't colors you use very often, consider buying the **Cricut Joy size of Infusible Ink** or **Iron-On**)
- **Weeding Tools** and scissors
- **Measuring Tape**
- **Cricut EasyPress**, Heat Press or iron (note if using Infusible Ink you will need an EasyPress or a Heat Press that you can set to a specific temperature)
- **Zippered Pouch**- I suggest the **Cricut Cosmetic Bags** because they are Infusible Ink friendly and you get 3 of them in a pack. (If you are planning on using Infusible Ink you will either require these or another sublimation friendly zippered pouch.)
- **Butcher Paper** (Only needed if using Infusible Ink. A sheet comes with the standard size of Infusible Ink)
- **EasyPress Mat** (If using a Cricut EasyPress) or towel
- **Sheet of white or light colored cardstock** (If using Infusible Ink)
- **Lint Roller** (if using Infusible Ink)
